Machines have significant sales, yet its performance consistently drops from 10.98%(2016) profit margin to 5.20%(2017) to -7.19%(2018).	Bookcases (-3.02%) and Tables(-8.56%) with negative profit margins exist in this view as well, these sub categories drag our profit margins low.	Last year (2018), shows similar patterns, however, also points out the problems in Machines clearly. We need to consider what to do with the worst performant categories.
